Mobile: (765) 543-5277
Email: yan568@purdue.edu

EMPLOYMENT

- 04/2025 - **Postdoctoral Researcher**
Elmore Family School of Electrical and Computer Engineering
Purdue University, West Lafayette, IN, USA
Web: [Electromechanical Energy Conversion](#) | [Mechatronics](#)
- 04/2024 - 04/2025 **Postdoctoral Research Fellow**
Department of Mechanical and Aerospace Engineering
Joint UNC/NCSU Biomedical Engineering Department
North Carolina State University, Raleigh, NC, USA

EDUCATION

- 07/2019 – 03/2024 **Ph.D. in Electrical Engineering**
Nanyang Technological University, Singapore
- 08/2013 – 06/2017 **B.E. in Electrical Engineering**
Xi'an Jiaotong University, Xi'an, China

RESEARCH GRANT EXPERIENCE

- 2026 **Department of Energy (DOE), AI-Enabled Demagnetization and Safe Removal of Permanent Magnets from Electric Motor Rotors for Recycling**
Contribution: Theoretical modeling, mathematical derivations, and technical figure preparation.
- 2024 **National Science Foundation (NSF), CPS: Efficient Human-in-the-Loop Learning for Human-Centric Cyber-Physical Systems**
Contribution: authored the methodology section and contributed to proposal writing
Total award: \$350,000 over three years
- 2023 **National Institutes of Health (NIH), Smart and Connected Health: Spine-Hip Exoskeletons With Learning-Based Optimal Control for Low Back Pain Alleviation**
Contribution: literature review and methodology development
Award: \$274,000 per year for four years
- 2023 **Panasonic Corporation, Lightweight PCB Motor With High Specific Power**
Contribution: methodology section, literature review, and proposal development
- 2022 **Myron Zucker Grant Committee, IEEE Industry Applications Society, Integrated Winding Concept for Variable Flux Memory Machine**
Contribution: methodology section and proposal development

RESEARCH INTERESTS

My research advances electromechanical energy conversion and integrated mechatronics through the application-driven co-design of electric machines, actuators, mechanisms, and control. I design the electromagnetic source of motion together with the physical system it drives, enabling sustainable electric machines, high-performance actuation, and human-centered robotics for datacenter cooling, electrified transportation, and human mobility.

PEER REVIEWED PUBLICATIONS

8 journal publications and 7 conference publications including 4 first-author journals and 3 first-author conferences.

Journals (8)

- J1. **Y. Yan**, J. S. Huang, J. Zhu, Z. Hou, W. Gao, I. Lopez-Sanchez, N. Srinivasan, A. Srihari, and H. Su, "Compact and Foldable Hip Exoskeleton With High Torque Density Actuator for Walking and Stair-Climbing Assistance in Young and Older Adults," *IEEE/ASME Transactions on Mechatronics*, vol. 31, no. 4, pp. 4467-4477, Aug. 2026. (impact factor 6.3) [Link](#)

Conference Abstracts and Workshops Papers (2)

- A1. J. Zhou, W. Gao, **Y. Yan**, J. S. Huang, Z. Hou, I. Lopez-Sanche, and H. Su, "Experiment-Free Reinforcement Learning for an Unobtrusive and Compact Hip Exoskeleton with High-Torque-Density Actuators," Northeast Bioengineering Conference (NEBEC), Brooklyn, NY, 2025.
- A2. J. Zhou, W. Zhou, W. Gao, **Y. Yan**, Z. Xu, and H. Su, "A High Torque Density and Highly Compliant 7-DOF Collaborative Robotic Arm," IEEE/ASME (AIM) International Conference on Advanced Intelligent Mechatronics, Boston, MA, 2024.

MANUSCRIPTS UNDER REVIEW

- M1. **Y. Yan**, S. Cai, X. Yuan, J. Chen, and C. H. T. Lee, "Improved Variable-Flux Permanent-Magnet Machine With DC-Biased Hybrid Excitation for Variable-Speed Safety-Critical Applications," IEEE Transactions on Vehicular Technology (under 1st round major revision).
- M2. **Y. Yan**, H. Kim, and W. Lee, "Analysis and Design of an IE6-Class Line-Start Permanent-Magnet-Assisted Synchronous Reluctance Machine," IEEE Transactions on Industry Applications (under review).
- M3. **Y. Yan**, J. Im, and W. Lee, "Toward a Closed-Loop Supply Chain for NdFeB Magnets in Electric Vehicles: A Review of End-of-Life Recovery Technologies and Process Metrics", IEEE Applied Power Electronics Conference and Exposition (APEC), 2027, (under review).

TEACHING ADVISING AND MENTORING

Co-Instructor and Project Mentor, Purdue University

- 2026 Fall **Invited lecturer, ECE 32100 - Electromechanical Motion Devices, Purdue University**
Classroom lecturing, laboratory instruction, and hands-on student guidance.
- 2023 Fall **Co-Instructor and Project Mentor, EE6503 Modern Electrical Drives, Nanyang Technological University**
Presented lectures and mentored 10 student teams in electric machine design.
Organized presentations and technical reports; evaluated and provided feedback on student work.

Teaching Assistant

- 2024 **Teaching Assistant, MAE 435 Principles of Automatic Control, North Carolina State University**
Undergraduate research mentoring in wearable exoskeletons, classroom integration of lab-developed hip exoskeletons and hands-on student training.
- 2023 **Teaching Assistant, EE2005 Electrical Devices and Machines, Nanyang Technological University**
Organized student presentations and evaluated assignments.
- 2022 **Teaching Assistant, EE4207 Control System Design, Nanyang Technological University**
Facilitated discussion-based tutorials for groups of 15 students; organized presentations and evaluated assignments.
- 2022 **Teaching Assistant, EE4504 Design of Clean Energy Systems, Nanyang Technological University**
Facilitated tutorials and supervised experimental sessions for groups of 20 students; organized presentations and evaluated assignments.
- 2022 **Teaching Assistant, EE4534 Modern Distribution Systems With Renewable Resources, Nanyang**

Technological University

Supervised team-based experiments for groups of 20 students; organized presentations and evaluated experimental results.

Senior Design (7)

- Jin Sen Huang, Hip exoskeleton with high-torque-density actuation for walking and stair-climbing assistance in young and older adults, Ph.D. student, North Carolina State University, Apr. 2024-Apr. 2025.
- Chengming Liu, Fault-tolerant electric motor drive for aerospace applications, Nanyang Technological University, Fall 2023.
- Vinith Kumar S/O Vijaya Kumaran, High-performance fault-tolerant electric motor for aerospace applications, Nanyang Technological University, Spring 2022.
- Yuteng Yan, DC-biased current control for motor systems, M.S. student, Nanyang Technological University, Spring 2022.
- Kenzhi Iskandar Wong, Hybrid-excited motor for aerospace applications, Nanyang Technological University, Spring 2022.
- Weiyang Cheng, High-performance linear generator for wave-energy conversion, M.S. student, Nanyang Technological University, Fall 2022.
- Muyu Chen, Fault-tolerant electric motors for small electric vehicles, M.S. student, Nanyang Technological University, Fall 2021.

Mentored Undergraduate Research (3)

- Giridhar Balasubramaniam, Integrated electrical pump design for AI data center cooling, undergraduate research assistant, Purdue University, Fall 2025.
- Juncheng Zhou, High-torque-density, highly compliant 7-DOF collaborative robotic arm, M.S. student at Rice University and research assistant at North Carolina State University, Fall 2024.
- William Zhou, Unmanned ground vehicle system with direct-drive electric motors, high school student, North Carolina State University, Fall 2024.

INVITED TALKS AND CONFERENCE PRESENTATIONS

2026	IEEE Energy Conversion Congress and Exposition (ECCE), Vancouver, Canada.
2026	IEEE Transportation Electrification Conference & Expo (ITEC), Novi, MI, USA.
2023	Rolls-Royce RRE-Singapore Knowledge Series, Rolls-Royce internal
2022	Rolls-Royce Global Committee on Machine Electromagnetics Meeting, Rolls-Royce internal
2021	IEEE Industrial Electronics Society Annual Conference (IECON), Toronto, Canada.

AWARDS

2026 Fall	Conference Travel Funds, Purdue University
2019-2024	Fully Funded Research Scholarship, Nanyang Technological University
2022	Finalist, Three-Minute Thesis Presentation Symposium, Nanyang Technological University
2016	Siyuan Scholarship, Xi'an Jiaotong University
2015	Siyuan Scholarship, Xi'an Jiaotong University
2014	Outstanding Student Award, Xi'an Jiaotong University

PROFESSIONAL SERVICE**Technical Reviews / Publications Referee**

- IEEE/ASME Transactions on Mechatronics
- IEEE Transactions on Energy Conversion
- IEEE Transactions on Transportation Electrification
- IEEE Transactions on Vehicular Technology
- IEEE Transactions on Industrial Electronics
- IEEE Transactions on Power Electronics
- IEEE Journal of Emerging and Selected Topics in Power Electronics

Conference Reviewer and Organizer Work

- International Conference on Electrical Machines and Systems (ICEMS), 2023
- IEEE Industrial Electronics Society Annual Conference (IECON), 2023
- International Council on Electrical Engineering Conference (ICEE), 2023
- Organizing Committee, Three-Minute Thesis Presentation Symposium, Nanyang Technological University, 2021

Professional Society Memberships

- Member, Institute of Electrical and Electronics Engineers (IEEE)
- Member, American Society of Mechanical Engineers (ASME)
- IEEE Robotics and Automation Society
- IEEE Industry Applications Society
- IEEE Industrial Electronics Society
